Comments from the Public.

No public comments were emailed to the Village Administrator prior to the meeting.

Joanna Skupien mentioned that David Hoover with Nimec was in attendance to answer any questions regarding the electric aggregation ordinance on the agenda.

Gus Rapatas

Mr. Rapatas voiced his frustration regarding the robo call from President Tannhauser sent to registered voters.

After one month of the Norridge Improvement party knocking and ringing door bells the Norridge Improvement Party placed a call not to answer the door.

The Norridge Improvement Party can go out earlier than independent candidates to collect signatures. The call seemed to be a scare tactic and intimidation effort for individuals seeking an office in the village or township.

He stated it was a juvenile act and one of cowardice by the appointed Village President and three other appointed trustees.

In his opinion the current board does not want a fair election. Party fears they cannot win without scare tactics. He would be ashamed to place a call as an official and ashamed to be part of a party that condones those tactics.

Residents will be heard and they will make their decisions. Changes will be made to return Norridge to what it once was. Currently residents don't love Norridge, they love what it was. Why make that call? He awaits a response from President Tannhauser.

Wally Biszczuk

Mr. Biszczuk commented on the abuse of power in Norridge.

Twenty one years ago the abuse started for him regarding a fence and the building department. Sending a letter ten days after a case is an abuse of power and discrimination.

The Village should take responsibility for mistakes. He started the Polish organization in Norridge which is active. Many people know about this. Inspectors cannot say remove your

fence because of maintenance and a plot of survey.

If someone comes for a permit for a fence it should be signed and stamped by the Village. Sign and stamp the plot of survey. There are many cases of Polish people, a nice neighbor of his, was told she could not have tomato plants because of rats. The Italian neighbor could. How long will there be discrimination and abuse of power? How can the chief of the building department lie on a police report? How many more cases with the building department are out there? Why have inspectors sign and give permits. Why make a criminal case for a nice fence. He represents the Polish immigrants in Norridge.
