Linda Cowsky

- Is there a reason that the Right Turn Only out of the gas station is only enforced from 9pm to 7am? Why is it not during the daytime when children are outside? Daytime hours seem just as bad as overnight to avoid the traffic coming down the street.
- Is the rule for number of people allowed in a building based on the square footage? She is referring to business specifically and COVID restrictions. She works in Park Ridge and is only allowed 5 customers in her shop at a time due to state restrictions which she thought was based on square footage. That does not seem to be enforced here in Norridge for many businesses.
- The ordinance for garbage states residents cannot put their cans out prior to 6pm the night before their pick up days. People are not following this rule. Is a drive way or apron consider private property and what about restrictions in the alley?

Sheldon Berger

- Regarding street maintenance, when streets are marked (water, sewer, gas) how long from the actual marking is there until the work is completed? 4130 Overhill has been marked for weeks and nothing is happening. He would like to have an approximate time of when the work will be completed.
- Regarding election and early voting, if someone is in line at 6:45 and because of social distancing and wait times will they be able to vote if they are not in the voting room at 7pm?
