

Hello, Trustee Ronstadt calling. On behalf of the Water Committee I would like to give an update on the (LSLR) Lead Service Line Replacement Project.

We did receive a response from the IEPA about the funding to replace lead service lines. Norridge was one of 47 communities on the 2024 Project Priority List. Out of the 47 communities, only 27 were chosen.

Unfortunately, Norridge was not one of the chosen municipalities for the principal forgiveness funds due to the Village's median household income being above the guidelines set by the IEPA

So, if you do not have a lead service line, you have nothing else to do.

Residents with lead services lines will be notified on what the next step will be.

Thank you again for your participation in this Village-wide water line survey.
