

Friday Facts

Important reminder from the Village of Norridge Snow Command.....

Snow route parking enforcement began October 1st and will continue until April 15th. Before the first measurable snow is upon us, we would like to take this time to remind you about the two different snow route designations and the regulations regarding them. As a reminder, once the two-inch threshold has been reached, the Village will immediately activate the snow route hotline (708-583-5775), our website, Facebook and Instagram pages will be updated, and an email will be sent via GovDelivery for those residents who registered to receive these emails. You can find the maps for the two snow route areas, as well as any updated information on our home page, under the tab “Snow Route Maps & Information”.

Odd/Even Snow Route Area: The Historic section of the Village, East of Harlem Avenue, the 8200 & 8300 blocks of Foster Avenue, and some streets near Leigh School follow an odd/even snow removal restriction. Simply put, from Wednesday through Sunday, after two inches of snow has fallen, there is no parking from 8:00 A.M. – 1:00 P.M. on the side of the street with even addresses on even calendar dates and no parking on the side of the street with odd street addresses on odd calendar dates. These restrictions will remain in effect until the snow event is over and snow removal is completed.

Designated Snow Route Area: This area, where houses have driveways, must utilize their driveway and move all cars off the street, after two inches of snow has fallen, until the snow event is over and snow removal is completed. By moving your cars, the plows can remove the snowfall before it freezes, which will eliminate any boulders being thrown back onto driveway aprons on street maintenance days.

Thank you for your cooperation.
